Application Rate	Water Volume	Area
50ml	7Lt	100m ²
100ml	14Lt	200m ²
2L READY-TO-USE (RTU) BOTTLE		
2L RTU bottle covers up to 200m ²		

THE COLOURGUARD PLUS DIFFERENCE

Colourguard PLUS is NOT a lawn paint. Colourguard PLUS is an organic pigment blended with a liquid fertiliser that is naturally absorbed by the grass leaf blade. This means you get to keep the beautiful natural green colour for up to 3 months, whilst giving your lawn a dose of vital micro nutrients.

SAFETY:

Keep out of reach of children. Avoid contact with eyes and skin. If contact occurs, flush with water and consult a doctor. May be harmful if swallowed. If accidental ingestion occurs consult a doctor. See Material Safety Data Sheet and additional information at lawnsolutionsaustralia.com.au or please call 1300 883 711. Lawn Solutions Australia is not responsible for any misuse of this product.

ColourGuardTM PLUS

Liquid Fertiliser + Natural Grass Pigment

GREAT FOR:

INSTANTLY RESTORING THE NATURAL GREEN COLOUR OF YOUR GRASS AND IMPROVING ITS HEALTH - ALL YEAR ROUND!

What is ColourGuard PLUS?

Lawn Solutions Australia's ColourGuard PLUS is a 100% organic and non-toxic grass colourant which now has the addition of a liquid fertiliser. This combination of a robust blend of vital micro nutrients with an organically derived pigment will improve both the appearance and health of your lawn at any time of year. ColourGuard PLUS is easy to apply, plus one application gives your lawn up to 3 months of natural green colour. Say goodbye to brown lawns in winter and dry-looking lawns in summer!

Protect your lawn

Think of ColourGuard PLUS like a sunscreen for your lawn: it screens out the harmful UV rays, but still allows filtered light to hit the leaf blade. ColourGuard PLUS protects your lawn during even the hottest summer months.

The 'need to know'

After applying ColourGuard PLUS, be

sure to allow at least 2 hours of direct sunlight for the pigment to absorb. If your lawn is in a shaded area you may need slightly longer.

ColourGuard PLUS is a permanent colourant, so it will only disappear as your lawn grows. Once ColourGuard PLUS has dried, it will not run or fade after rain. It's locked into the leaf blade until it grows out!

PRECAUTIONS:

- Avoid applying to footpaths, driveways and other hard surfaces
- Allow up to 24 hours before desired result
- Allow adequate time for lawn to dry before walking on or applying water
- It's advisable to water well 2 to 3 days after application to wash off any excess.

CLEANING:

Use a general purpose window or floor cleaner.

Benefits:

- ✓ **100% organic (no harmful chemicals)**
- ✓ **Easy to use**
- ✓ **Works on all types of grass**
- ✓ **Substantially reduces the amount of watering needed**
- ✓ **Includes vital micro nutrients which assist in overall plant health**
- ✓ **Won't bleed, run, or stain once absorbed into the grass**
- ✓ **Stays green during droughts and water restrictions**
- ✓ **Safe for the environment, pets and people**
- ✓ **Works in hot, cold and frost climates**
- ✓ **UV fade resistant**
